

January 14, 2020

To Our Valued Partners,

As a global company, we are constantly leveraging our purchasing power whenever possible to minimize increases from our vendors and partners. Consequently, we have done a good job in minimizing the impact of our raw material and freight increases and will be having the following increases effective March 1st, 2020. We will not be having an increase on our small inline tanks.

| | |
|---|----|
| Well tanks (13 gallons and larger) | 4% |
| Hydronic tanks (13 gallons and larger) | 4% |
| Thermal expansion tanks (13 gallons and larger) | 4% |
| ASME tanks | 3% |
| Solar tanks | 4% |
| Accessories | 4% |

All orders placed as of that date will reflect the new pricing. All orders placed prior to that date for immediate release will have your current pricing. Your new itemized price sheets will be sent out prior to March 1st.

Please do not hesitate to call with any questions or concerns.

Thank you for your business,

Scott Jacobsen
